Art Unit: 2834

Allowable Subject Matter

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance: while it is generally known to connect a resistor between a signal source and a surface acoustic wave comb electrode, the prior art fails to show or fairly suggest use of a resistor formed in a semiconductor which is located on a main surface of the piezoelectric substrate for such or other purpose.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry to Examiner Dougherty at (571) 272-2022.
